NUMBER 44

37-Year Custom Falls by Wayside Because of War

For the first time since 1908, when Saint Pat's was first celebrated on this campus, the anniversary of our Patron Saint is passing without the customary celebration. For the first time in 37 years, the campus is devoid during the third week in March of the customary shillaleas. Thanks to Messrs Shicklegruber, Hirohito, and that beefy little Italian blacksmith, MSM is forgoing its traditional Saint Pat's celebration. Lest we forget the significance of this celebration to us and to the great engineering brotherhood, we repeat herewith the history of Saint Pat's.

Saint Patrick, as all tried and true engineers know, was the first engineer, to use engineering principles very effectively in ridding the Emerald Isle of the members of phylum Chordata (Vertebrata), class Reptilia, and has therefore long been acknowledged as the PATRON SAINT OF ALL ENGINEERS. This fact was known on the MSM campus, but for the first 38 years of the school's existence nothing was done about it. This situation was changed, however, in the memorable year of one thousand nine hundred and eight Anno Domini, when a representative of the student body of our beloved institution was dispatched to view the celebration of our beloved Saint's anniversary as held by our engineering brethren in the town of Columbia, Missouri.

When this delegate was poured off the train in Rolla, on March 16, his tales of the glory of the Missouri celebration so enthralled his fellow students that the following day, March 17, Saint Patrick's Day was declared to be a holiday.

Saint Pat arrived the following day in Rolla on the traditional handcar and was duly escorted to the front of Norwood Hall where he surveyed a quadrangle with a transit ingeniously constructed from a beer bottle and a forked stick. He then mounted the steps of the building and delivered his address to the teeming multitudes. The Seniors were knighted "Knights of the Order of Saint Patrick" after kissing the original Blarney Stone. The celebrants then disbanded with the firm resolve to make this celebration an annual affair.

From those beginnings the famed Missouri School of Mines St. Pat's celebration grew to the grand affair of the years not too far in the past. Let us hope that after the grim war in which we are now engaged is successfully terminated the Miners will again celebrate Saint Pat's as in days of yore.

We have it on reliable information that our brother engineers in the School of Engineering at Columbia, Missouri are going to make an honorary Knight of the

Buddy Kay Brings Many Artists

Buddy Kay and his "Dance-the-Kay-Way" orchestra will feature entertainment and music designed for both pleasure and dancing at MSM's annual Military Ball this evening in the gaily decorated Jackling Gym, starting at 10 o'clock.

Featured entertainers of the 13-piece band include lovely Marion Lambert, Lou Nomann and Buddy Kay himself as vocalists, Frank Schram and the Kay-Trio.

BUDDY KAY

Lou Nomann, a mid-west vocal favorite, was formerly featured with the Tony di Pordo and Sherman Hayes orchestras.

The band has been featured at the Tune-Town, Casa-Loma, Showboat, Forest Park and Highland clubs and hotels in St. Louis, and has enjoyed repeat engagements at the Westwood Country club in Little Rock, Ark., and hotels, ballrooms and country clubs all through the mid-west and the south.

The band for the last six years has had many engagements at the Forest Park Highlands ballroom, the Tune-Town and Casa-Loma in St. Louis.

Buddy Kay and the orchestra have been featured on the NBC, CBS and Mutual networks.

St. Pat's Board to Hold Spring Dance

The St. Pat's Board met last night, March 18, at 7 o'clock in the club room in the Met building. President George Wagner presided over the meeting. Plans were made during the meeting for a farewell dance, or it might be called the last fling for all the reserves that are to be called into active service. The last fling will be held the last part of April or the first part of May. To help the financial end of this dance, there will be a benefit show at the Uptown theatre on or about the 20th of May.

Order of Saint Patrick of Gov. Forrest C. Donnell at their St. Pat's celebration this week end.

Grawe Addresses Sigma Xi on Ores

The Sigma Xi, honorary society for research, held a meeting last Wednesday evening in Norwood Hall. The main speaker for the occasion was Dr. O. R. Grawe, the head of the Mineralogy Department. The subject of his lecture was "Manganese Ores in Missouri."

The talk by Dr. Grawe was one of a series of public addresses sponsored by the local chapter of Sigma Xi. The Material upon which Dr. Grawe reported was the results of his research which he did for the Missouri Geological Survey, under the direction of Dr. H. A. Buehler, during the summers of 1941 and 1942.

Dr. Grawe pointed out the need of ferro-grade manganese ores, and discussed the mineralogy, geology, and modes of origin of the local ores. The two principal types of manganese ores in Missouri are (1) hydrothermal ores occurring as veins in the Pre-Cambrian rhyolite porphyries and (2) sedimentary ores which form the cement for chert breccia in the surface residuum.

The talk by Dr. Grawe was illustrated with a map, specimens, and colored slides.

Professor (taking up quiz paper): "Why the quotation marks on this paper?"

Student: "Courtesy to the man on my left."

Dalena Rhodes to Receive Cadet Colonel's Commission

Military Ball to Climax Activities

Sponsored by the American Society of Military Engineers of the MSM campus, the Saturday night dance is to be the climax of the week end of festivities.

Like all military balls, it will be impressive, but plans have been laid in this case to make it the most spectacular ball of its nature ever held on the campus of the School of Mines.

The music for the evening will be furnished by the orchestra of Buddy Kay, featuring the vocalists Lou Nomann and Marion Lambert. Buddy Kay has one of the well known orchestras of the middle west and his star is still rising.

The dancing will start at 10 p. m. in Jackling gym and will continue into the wee hours of the morning. It will be held as a semi-formal function, the girls coming in formal attire and the men either in uniform or in their Sunday suits.

Highlight of the evening will be the commissioning of the Honorary Cadet Colonel, Miss Dalena Rhodes of St. Louis. The other girls attending the dance as dates will also be commissioned for the evening. All of the cadet officers will have a hand in the commissioning ceremony, which should be impressive in itself considering the present strength of the military department on the campus.

This will be the last social group dance for the duration of the war

Fisk Jubilee Singers to Appear On General Lectures Program

The Fisk Jubilee Singers, who are appearing in concert in Parker Hall on Tuesday night, March 24, come from an outstanding Negro university in Nashville, Tennessee, which is famous for the high quality of its academic work and the strong leadership it provides for Negro communities all over the Nation.

Shortly after the Civil War, General Clinton B. Fisk, the distinguished soldier-educator, met with representatives of the American

Missionary Association to establish a liberal arts colleges for Negroes in Nashville.

In the early '70's the Fisk Jubilee Singers, as they are called, made their first European tour, during which they were triumphantly by the audiences before which they appeared.

They sang command performances before King Edward and Queen Mary of England, Lady, Astor, Ambassador Herrick, Oincare, (Continued on Page 4)

Tau Beta Pi Quizes Four Pledges on Many Subjects

The Tau Beta Pi quiz was given to the pledges on Thursday night, March 18, between the hours of 7:30 and 11 o'clock. The exam was held in the geology lecture room in Norwood hall. The four pledges, Richard Mateer, Purl Smith, Albert Keevil and Daniel Stocker, all passed the quiz with flying colors. After the quiz, the pledges served refreshments to the members.

The quiz covered all the subjects necessary to the engineer's education. Some of the fields covered were: the history of the Tau Beta Pi, the history of MSM, mathematics, science, English and current events. Following are a list of some of the questions asked to puzzle the pledges:

1. Prove that the product of any three consecutive numbers, when multiplied together, will be divisible by six.
2. What are the departments of the school? Name the heads of the departments.
3. What state institutions are located on the campus?
4. Approximately how many volumes are there in the library other than fiction?
5. What is the relation of the

Bureau of Mines station to the school?

6. Distinguish between a molecule and an atom of an element.

7. The density of a gas as compared to air is 2.45. Calculate the molecular weight of the gas.

8. Name 10 metallic and 10 non-metallic compounds.

9. How could you prove that one of the elements of which a piece of paper is composed is hydrogen?

10. Assuming that the strength of a beam with rectangular cross sections varies directly with the breadth and as the square of the depth, what are the dimensions of the strongest beam that can be sawed out of a round log whose diameter is d?

11. What is the average speed, when A travels from Rolla to St. Louis (110 miles) at the rate of 40 m. p. h. and returns at the rate of 30 m. p. h.?

12. The speed of a boat in still water is 5 m. p. h. and that of a stream is 3 m. p. h. How long will it take the boat to reach a point 500 feet upstream and on the opposite side of the stream which is 1,500 feet wide?

13. Briefly explain the nature of idiom. Illustrate with common English idioms.

14. Do you think that the present war will in any way affect the trend of contemporary literature? Explain briefly your conclusion.

15. What author won the latest

Blue Key Holds Formal Initiation

The last meeting of the Blue Key was held at Professor F. E. Dennie's home on Wednesday evening March 17. The purpose of this meeting was to formally initiate seven new members into the organization. A dinner given by Professor Dennie preceded the formal initiation. Professor Guest was the guest speaker of the evening and gave a short talk to the members and initiates.

The newly initiated members are: Charles Counts, Sophomore Met; James Dowd, Junior Met; Warren Helberg, Junior E. E.; Reo Goodwin, Junior Geologist; John Van Os, Junior E. E.; Robert Ehrlich, Senior Chem; and Russell Frame, Junior E. E.

The Honorary members present at the meeting were: Professor W. C. Alsmeyer and Mr. Noel Hubbard.

Theta Tau Entertains 35 at Annual Smoker

The Theta Tau professional engineering fraternity held a smoker last Sunday for all prospective pledges. There were 35 fellows present. From these thirty five, several will be chosen to pledge the fraternity. A meeting is being planned for next Friday night after which the names of the pledges will be announced.

The fraternity's membership is made up of students who show a special interest in engineering. Membership is not based entirely on grades. In addition to these a fellow must show a special interest in engineering as a profession.

She: Would you like to see where I was operated on for appendicitis?

He: No, I hate hospitals.

Nobel prize in literature?

16. Who is the most famous poet laureate of England, and what is his most famous poem?

Church Services in Rolla PRESBYTERIAN CHURCH

Rev. Frank L. Rearick, Pastor 6th & Olive Sts.

Church School 9:45 a. m.
Morning Worship 11:00 a. m.
Evening Worship 7:30 p. m.

The Rolla Presbyterian Church feels that an important part of its ministry is to the students of the Missouri School of Mines. Hence it has organized itself for as effective a ministry as possible to that group. Prof. C. H. Black is the chairman of the Presbyterian student work committee which does most of its work through the Westminster club, an organization entirely—of, by, and for Miners.

The Westminster Club holds a supper meeting on the last Sunday of each month at 6:30 p. m. in the dining room of the Presbyterian Church. The next such meeting will be on Sunday, March 28, at which time the guest speaker will be Prof. A. Legsdin. The program at these meetings are varied, consisting of discussions, addresses by guest speaker, moving pictures and illustrated lectures with devotional services.

The teacher of the Young People's Sunday School Class, of which the Presbyterian Miners are a part, is Prof. L. E. Leaver. This class meets each Sunday at 9:45 a. m. Dr. J. S. Cullison is the director of the choir which furnishes the special music at the morning services of worship.

The Rev. Frank L. Rearick is

A Bit Evasive

Violet: "Now that we're engaged, honey, you'll give me a ring, won't you?"

Bob: "Sure thing. What's your number?"

Casey McDuff says that a tommyhawk is what if you go to sleep suddenly and wake without hair, their is an Indian with.

the local Presbyterian pastor. Missouri Miners will always find a very genuine and cordial welcome to all the services and activities of the church.

Volleyball to be Next Sport On Intramural Calendar

Awards to Members Of Winning Team

With the completion of the boxing and wrestling tournament, the Intramural program settles down to other sports in which a larger number of students have a chance to participate.

With the dropping off of varsity sports, Intramurals are becoming the focal point of the sports program. The athletic department is more than ever trying to increase the number of participants in the various Intramural sports, and has recently added as an incentive, individual medals to members of the winning team as well as their manager. In most cases a trophy will also be awarded the winning team.

Coach Hafeli has pointed out the need for increased participation in sports by all students, because today, men need a chance for physical development. Coach Hafeli has hoped for a program whereby each organization would enter two teams in each sport in order to increase the number of participants but with students leaving school, some organizations would be unable to enter two teams. Some organizations find it hard enough at present to enter one team. The athletic department is constantly working to enlarge their program to include all students, and as soon as certain difficulties can be ironed out, every student will have a better opportunity to enter Intramurals.

Volleyball starts Monday night with the PiKa fraternity meeting the Seniors at seven o'clock, and the Sophomores meeting the Kappa Alpha fraternity at eight o'clock. The schedule for the games up to and including Wednesday night is as follows:

MONDAY, MARCH 22
7-8 p. m. Pi Kappa Alpha vs. Seniors.
8-9 p. m. Sops vs. Kappa Alpha.
TUESDAY, MARCH 23
7-8 p. m. Sigma Nu vs. Frosh.

8-9 p. m. Lambda Chi Alpha vs. Triangle.

WEDNESDAY, MARCH 24
7-8 p. m. Juniors vs. Sigma Pi.
8-9 p. m. Kappa Sigma vs. Theta Kappa Phi.

Jim Miller, student assistant in the athletic department is in charge of the tournament, and will act as referee at the matches. Each team will furnish a scorer for the games.

The matches will be run off with three games to a match with the one winning two out of three being the winner. Any failure on the part of a team to report for a scheduled game will result in that team forfeiting the game. The schedule for all games is posted on the bulletin board in the gym, so there is no need for any team to fail to report.

Each member, including the manager, of the winning team will receive a handsome medal, and their organization will receive a trophy for winning the volley ball championship.

Super Purified Anecdotes - - -

A Scotchman had been presented with a pint of rare whiskey. He was walking home, when a car knocked him down, hurt his leg badly. He got up and limped down the road. Suddenly he noticed something warm and wet trickling down his leg.

"Oh, God," he groaned, "I hope that's blood!"

"What do you think of the latest news of the foreign situation, senator?" inquired the reporter.

"Don't bother me! I gotta get to the radio and talk! In a crisis like this there is no time to think!"

Evolution of the automobile, according to the Pittsburgh Press:
1940—No running boards.
1941—No gearshifts.
1942—No tires.
1943—No car.

'Round The MIAA

By Morris Sievert

TRACK

The latest official notice received by the athletic department on the track situation, shows that the miners are the only school in the conference that is sure of having a team this year.

Last week Maryville dropped from the conference as far as track is concerned, joining Kirksville, Warrensburg and Springfield who have already dropped that sport. Cape Girardeau has not officially issued a statement as to their stand, but it is presumed they will drop out of the conference.

The policy of the school of Mines is one which competition in all intercollegiate sports will be continued as long as it is possible to schedule competition. Coach Hafeli added to this statement saying, "Intramural sports should be even more highly encouraged now than ever before, because of the great need of all men for physical development."

The athletic department has made attempts to schedule track meets with Washington University, Missouri University and an Arkansas college for the coming season, but no definite answer has been received from these schools.

BASKETBALL

The Miners failed to place a single man on the All-MIAA teams recently selected at Kansas City, for 1943. The usual interest given this selection was somewhat overshadowed this year as Cape Girardeau, MIAA champions, brought further honors to the conference and themselves by annexing the National Intercollegiate Basketball crown last Saturday evening in Kansas City.

In gaining their victory, Cape had to beat out their old foe Maryville, runnerup in the conference this year, in a very close game 34 to 32. This is the second time an MIAA team has captured the national title; Warrensburg turned the trick back in 1933.

Cape shared the spotlight in the first team selections with Maryville, placing three men to Maryville's two. Jack Russell of Cape and Ed Johnson of Maryville, selections on the MIAA first team, also gained berths on the National Intercollegiate All-Star team. Jack Klosterman of Cape, chosen on the second all conference team, was given a place on the NIBA All-Star team along with his teammate Jack Russell.

Sherlock Holmes: "Ah, Watson, I see you have on your winter underwear."

Watson: "Marvelous, Holmes, marvelous! How did you ever deduce that?"

Holmes: "You forgot your pants."

Music Club

This Sunday the Music club will present Beethoven's 9th Symphony. Often referred to as the "Chorale Symphony," the work has a unique construction in that its fourth movement is a chorale interpretation of Schiller's "Ode to Joy." This deeply devotional theme is one of the masterpieces of religious music. The 9th is Beethoven's last and greatest work and, although he composed it when totally deaf, it stands as an eternal tribute to his monumental genius. In addition to this major work the program will include an overture by Rossini.

The meeting will be held in Norwood Hall at 7:30 Sunday evening. Everyone is welcome to attend.

Aggressive wife to meek little husband whom she had just raked over the coals for making a fool of himself at a party: "And don't be sitting there," she shouted, "making fists at me in your pocket, either!"

Rastus: What all did de doctor say's de matter wid you?

Alpha Phi Omega Initiates Five

Tuesday evening, March 16, at 9:00 o'clock in the club room, the Beta Omicron chapter of Alpha Phi Omega initiated five new members and also held its business meeting.

The "Keep off the Grass" campaign was put underway by the appointment of a committee to make preliminary arrangements. A committee was also appointed to handle the coming banquet.

The new initiates are:

George Edward Burke, Junior C. E., scholastic leader fall 1940-41, treasurer of A. S. C. E., member of Kappa Sigma fraternity and R. O. T. C. Cadet Sergeant.

Robert Wesley Jamison, Junior E. E., member of Lambda Chi Alpha fraternity, Rollamo Board, and also Student Council alternate.

Harold Joseph Rudisale, Junior E. E., R. O. T. C. Cadet Sergeant, member of Engineers' club and Student Assistant Librarian.

William Joseph Thomas, Junior Mechanical, member of Theta Kappa fraternity, A. S. M. E. and president of the Intrafraternity council.

Richard Allen Walker, sophomore M. E., member of Lambda Chi Alpha fraternity. Dick also works at the United States Geological survey in his spare time.

Captain: The man who sneaked out of barracks last night and met a girl in the woods will step forward—COMPANY HALT!

Sunday School Teacher: "Now where does God live?"

Small Boy: "In our bathroom."

S. S. T.: "Why do you think that?"

S. B.: "Well, every morning daddy goes to the bathroom door and yells: "God, are you still in there?"

Off the Campus

THETA KAPPA PHI

Theta Kappa Phi announces the pledging of Tom Baugher, Sophomore Miner. Tom is from Springfield, Missouri.

We are happy to welcome "Traveling Bob" Meiners back to school this week. He would receive an award if one were given to the student who made the largest number of trips to St. Louis.

The Mercier boys are preparing for a large number of guest over the week end. The house has been vacated and will be occupied by the dates over the week end.

TRIANGLE

The Rock House has had busy doings the past several days. Aside from losing one of its most promising brothers in John Carlson to the Army, the Ol' House had its annual Spring housecleaning in anticipation of the coming Military Ball.

Monday night elections were held for House officers and the following were elected. Jim Wigge is the new president and big things are expected of him in keeping Triangle among the top fraternities at M. S. M. Jim will be ably assisted by Warren Bell, vice-president; Jim Smith, recording secretary; Hartley Locher, Treasurer; Bob Naert, Seward; Cliff Dameron, House manager; Raulin Emo and Larry Jamboretz, corresponding secretaries; Harold Webers, Chapter Editor; and Victor Bradford and Donald Fink, co-librarians.

These new officers will be installed in office March 28 followed by a banquet held at the Chapter House.

An interesting highlight here at Triangle has been the entertaining at dinner Lt. Ted Meyers of Vichy Airport. Ted is a Beta from the University of Florida and a really swell fellow. He recently conducted 10 of us through Vichy and a more pleasant Saturday afternoon could not have been had.

Asylum Inmate: "Why are we all here?"

Another Inmate: "Because we're not all there."

JUBILEE SINGERS—

(Continued from Page 1)

Clemenceau, Eva Gauthier, and Premier Mussolini were their patrons. In America they were the first group of Negro singers to appear in the Hollywood Bowl. They have sung with the great symphony orchestras in Boston, Los Angeles and Detroit.

The music which the Jubilee Singers will sing is the same as that which was first worked out from the melodic and unusual strains so dear to every negroes heart. The spirituals are representative of a new and stirring kind of music developed in America.

The concert will begin at 8:00 p.m. and will be in Parker Hall. Admission will be by activity card to students, .25 to Signal Corps and Navy men, and students dates and faculty members. To outsiders the admission will be .50.

MILITARY BALL—

(Continued from Page 1)

and will sound the keynote of MSM's complete alteration, so far as social events go, to the wartime schedule.

Invitations are free, but must be preceded by a \$1.50 contribution to the S. A. M. E. They may be acquired by notifying any member of the society.

Many of the military students will go into the armed forces at the end of this semester, and for them this event will hold a special meaning. We should do all possible to make this occasion remembered as a gay, typical Miner conclusion, in honor of them.

Corsages of war stamps may be bought from a number of the downtown merchants, and all those who can possibly do so are asked to purchase one.

A chemist says that the first alcohol was distilled in Arabia, which may explain those nights.
